

Sound Oil plc

Pasundan-1 well

Following press speculation earlier today, Sound Oil plc wishes to deny reports that an oil discovery has already been made at the Pasundan-1 exploration well. Drilling operations at Pasundan-1 are on schedule and the well is at 6,769 feet.

Sound Oil plc is a 20% shareholder (through its wholly owned subsidiary Mitra Energia Citarum Limited) in the BPREC operating company that is drilling the Pasundan-1 exploration well, located approximately 50 km southeast of Jakarta, Java, Indonesia.
